Owner

Oregon Trail SD 46

General Contractor
Hoffman Construction
Company

Mason Contractor
Davidson's Masonry, Inc.

Mason Foreman
Rick Salchenberg

Brick Supplier
Mutual Materials

Block Supplier
Mutual Materials

Jury Comments

Good use of a variety of types, sizes and blend of masonry, including transitions of exterior to interior. Thoughtful detailing. Durability seems to have been a program requirement, successfully achieved.

~ Honor Award ~

Central Oregon Community College Health Careers Center

Bend, Oregon

Architect

Yost Grube Hall Architecture

Engineer

KPFF Consulting Engineers

Owner

Central Oregon
Community College

General Contractor

Howard S. Wright

Mason Contractor

Davidson's Masonry, Inc.

Mason Foremen

Jim Murphy & Jeremy Free

Certification

Earth Advantage Gold

Jury Comments

Good integration of masonry and other materials, including transitions of masonry from exterior to interior. Cool horizontal to vertical joint juxtaposition and patterning, but still simple, worthy of interest. Although not part of judging, daylight shadowing and night lighting are fantastic.

~ Honor Award ~

Bend Neurological Associates Building Bend, Oregon

Architect
BLRB Architects

Engineer
Eclipse Engineering, Inc.

Owner
BESCH2, LLC:
David Schloesser

Brick Manufacturer
Interpace Brick

Jury Comments

A successful integration of brick, CMU, metal panels and aluminum-framed glazing. Building massing and geometry are nicely supported by CMU plinth, brick patterning, surface recesses and color variations and the careful alignment of masonry elements with metal and fenestration. A thoughtful design, successfully executed.

Tile Foreman
Lance Howard

Brick Supplier
Mutual Materials

Block Supplier
Mutual Materials

Tile Supplier
Daltile

Certification
LEED Gold

Jury Comments

Although masonry played a large and successful part in the design and construction of this project, the jury felt the use of tile in multiple areas and conditions warranted considerable attention. The integration of types, shapes and dimensions of tile and masonry leads to an unexpected and delightful experience. Go Army!

~ Merit Award~

East County Courthouse

Portland, Oregon

Owner
Multnomah County

General Contractor
Howard S. Wright

Mason Contractor
Davidson's Masonry, Inc.

Mason Foreman
Jim Murphy

Brick Supplier
Mutual Materials

Certification
LEED Gold

Jury Comments

A very nice example of civic architecture, well executed. There is a timeless nature to this essential public building; longevity seemed to be an appreciated concern. Detailing did not appear to be a primary interest, although the integration of materials is quite successful. The virtue here is stone rather than brick. Crisp and simple detailing, well done.

~ Merit Award ~

Kaiser Permanente Westside Medical Center Hillsboro, Oregon

Company

Mason Contractor
J&S Masonry, Inc.

Mason Foreman
Robert Ray

Brick Supplier
Mutual Materials

Certification
LEED Gold

Jury Comments

Very nice coordination of masonry with other materials. Use of masonry in defining public/private building functions on the exterior was good, although the jury could not tell if this was transferred to the interior or wayfinding systems. Brick blend and detailing successful. Technical reasons for using masonry were well explained.

Enterprise Green
Committee

Jury Comments

A very difficult urban site and a project well executed. This is a wonderful weaving into Portland's downtown fabric and connection to the surrounding context. Fine detailing offers relief and visual interest. Brick blend, coursing, window head details, sill continuation. Attention to historical relevance is inescapable.

DISTINGUISHED PANEL OF JUDGES

VAUGHN L. LEIN

LSW ARCHITECTS, PC

Vaughn has been with LSW Architects since 1974, serving as its president from 1988-2012. The firm specializes in K-12 schools, community colleges, and public buildings, with considerable use of masonry on these project types. Vaughn has been active on various community boards and planning commissions, as well as serving on State advisory boards for the AIA, architect registration, and the Gorge Commission.

RENEE ALEXANDER (KROUPA)

BBT ARCHITECTS

With over 27 years of experience, Renée joined BBT in 2012 with an emphasis in planning, programming and design. In addition to her expertise in these areas, she also oversees operations and interiors at the firm. She has served as Planner and Facilitator on several major projects in Oregon and Washington.

KENNETH J. MOUCHKA

MOUCHKA ARCHITECTURE LLC

Ken has over 35 years experience in the local and Northwest design and construction industry, working on significant projects for ZGF, SRG, Boucher Mouchka Larson, Oh planning+design and most recently, Mouchka Architecture LLC. Ken has participated in and balanced project management, technical design, spec writing and QA/QC duties throughout his career on commercial, high tech, industrial, institutional, biotech and transportation projects.

Amber Arnett—Administrative Assistant

If a builder builds a house for a man and does not make its construction firm and the house collapses and causes the death of the owner of the house – that builder shall be put to death. If it causes the death of a son of the owner – they shall put to death a son of that builder. If it causes the death of a slave of the owner – he shall give to the owner a slave of equal value. If it destroys property – he shall restore whatever it destroyed and because he did not make the house firm he shall rebuild the house which collapsed at his own expense. If a builder builds a house and does not make its construction meet the requirements and a wall falls in – that builder shall strengthen the wall at his own expense.

— from the Code of Hammurabi (2200 B.C.)
